Notes: The "Undefinable" cases consist of families where the number of children under age 18 in the family is equivalent to the number of family members. Published 2009 poverty thresholds from the Census Bureau are used in these calculations. This variable is similar to RAT\_CAT from the 1997-2006 NHIS. FM\_SIZE and FM\_KIDS are generated variables indicating the size of the family and the number of family members under age 18, respectively. Categories 15-18 reflect the additional poverty ratio information from the income follow-up questions. RAT\_CAT3 uses information obtained from the income follow-up questions to provide additional detail for the highest poverty ratio category of RAT\_CAT2 (that is, where RAT\_CAT2 = 17). Please refer to the Survey Description Document regarding analysis of this variable.

**Recode based on FIN.384: At any time during [the last calendar year] did [you/any family members living here] receive benefits from the WIC program, that is, the Women, Infants, and Children program?**

Universe: ELIGPWIC = 1

Sources: FINWIC (FIN.384); PWIC (FIN.385)
